

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### **Usage guidelines**

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

Five Hundred homeless and destitute boys, most of whom are not eligible for other institutions, are given Christian home life, educated and taught trades.

The need of the child, his lack of home training and Christian teaching, are the chief matters considered.

Will those who sympathise with destitute children help in the saving of these poor boys?

# WHO'S WHO YEAR-BOOK

FOR

1904

LONDON

ADAM & CHARLES BLACK, SOHO SQUARE

1904

*Ward Ford*

## NOTE

THE *Who's Who Year-Book* is made up of the tables which were formerly such a popular feature in *Who's Who* itself. These tables were, in fact, the original nucleus of the book, which developed on different lines into a biographical annual. Thus, though the two books are now entirely distinct, there is an underlying connection, and additional details concerning all persons of eminence who are entered in the tables of the Year-Book will be found in *Who's Who*.

The Year-Book is issued in response to numerous suggestions and requests. It was felt that in spite of the large number of reference books there was still room for one where the information could be seen literally at a glance, and which included not only tables giving the gist of information contained in many expensive publications, but some original tables to be found nowhere else. For corrections and additional information in regard to all these the editor and publishers are greatly obliged to the various secretaries, registrars, and other officials without whose aid the book could never have been brought up to date. Any suggestions or criticisms which will help to make the book increasingly useful will be gratefully received.

THE EDITOR.

# THE LITERARY WORLD,

THE ONLY POPULAR LITERARY JOURNAL

[ESTABLISHED 1867.]

EVERY WEDNESDAY, ONE PENNY. MONTHLY, SIXPENCE.

Although published at a penny, this journal is a literary organ of the highest class. It supplies popular reviews of current literature.

The newest books in Fiction; Biography, Religion, and Theology; Travel; Poetry; Philosophy and Politics; History and Topography; Art and Science are reviewed in its columns by a staff of experienced reviewers.

Critical reviews of all important works are given, sometimes in the form of signed articles. Promptitude in noticing books is specially aimed at.

A feature of THE LITERARY WORLD from its commencement has been the brief illustrative extracts, which of themselves supply interesting reading matter, and, in combination with the comment, enable readers to form a very fair idea of the best new books.

ILLUSTRATED REVIEWS OF CHRISTMAS BOOKS ARE GIVEN IN SPECIAL SUPPLEMENTS.

## WHAT TO SEE IN ENGLAND

A GUIDE TO PLACES OF HISTORIC INTEREST, NATURAL BEAUTY,  
OR LITERARY ASSOCIATIONS

By GORDON-HOME.

*With 156 illustrations from drawings by the Author, and from photographs, and a Map showing places treated and Railways.*

THIS book is intended to put in the smallest possible space the means by which one may reach the chief places of interest in England. It will possibly make many holidays, week-ends, or isolated days more enjoyable by placing a defined object before the rambler. Places within an hour or two of London are in the front of the book, so that as one turns over the pages one is taken further and further afield. The brief summary of the interests of each place, and the many illustrations, may help to memorise the impressions obtained.
